Check out these amazing sharks!

Sharks have been living on our planet since before the dinosaurs!

Sticker sharks around the planet.

There are more than 450 different types of sharks!

Fill the ocean with swimming sharks.

Make the seaweed colourful.

HUNT!

great white shark

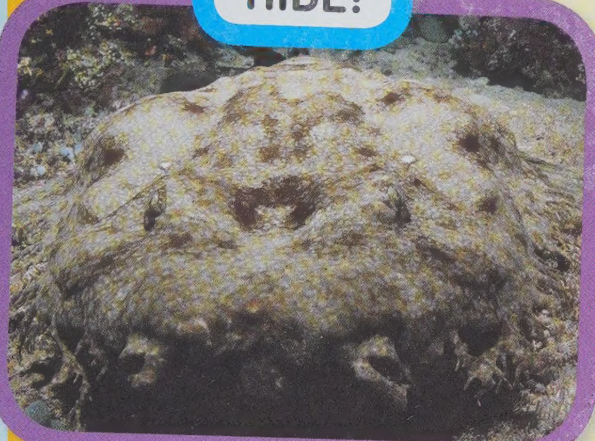

Sharks hunt and swim.
Sometimes they hide, too!

SWIM!

blacktip reef shark

HIDE!

tasselled wobbegong shark

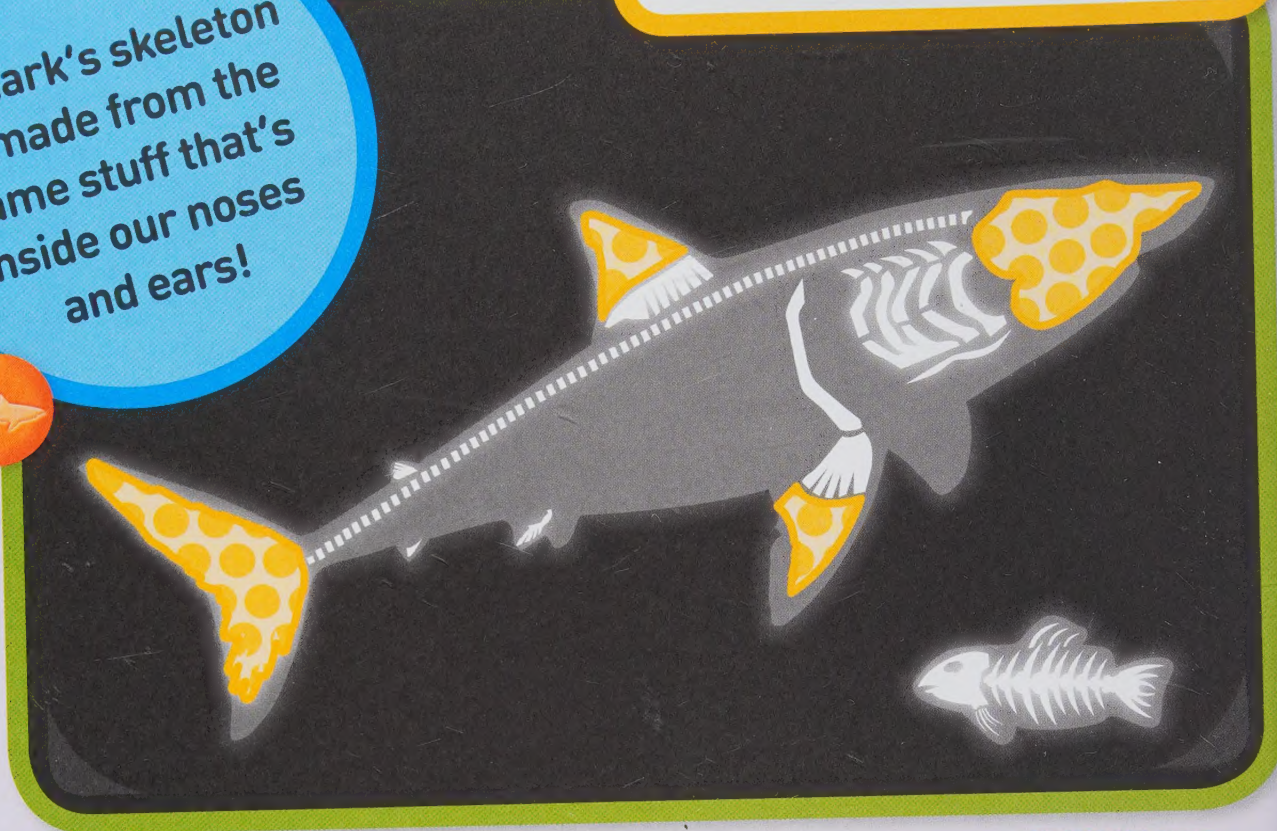

Find your way through
the shark maze.

What is a shark?

A shark's skeleton is made from the same stuff that's inside our noses and ears!

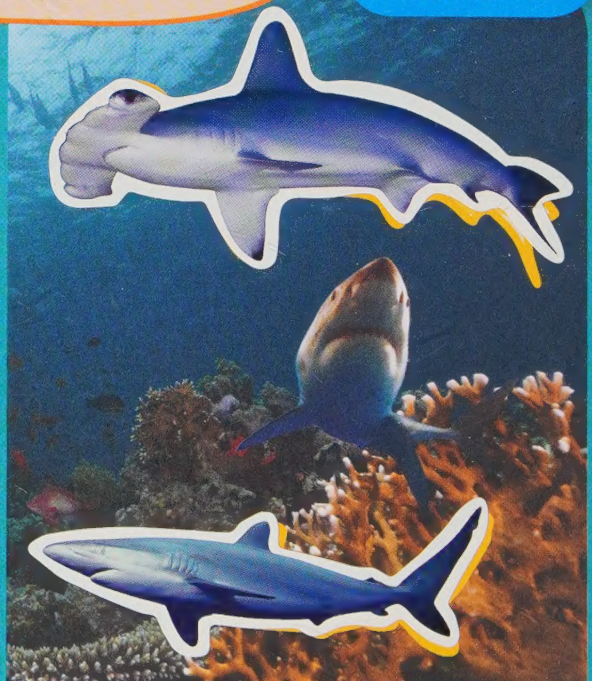

Sticker the shark's skeleton!

RAYs

Rays are related to sharks.

SHARKs

Find the missing stickers to sort the sharks from the rays.

snout

gills

tail

dorsal fin

mouth

pectoral fin

great white shark

Find the missing stickers to finish the shark!

Look for five shark words to finish the wordsearch!

Super swimmers

Follow the trails to find out
who swims the fastest!

great white shark

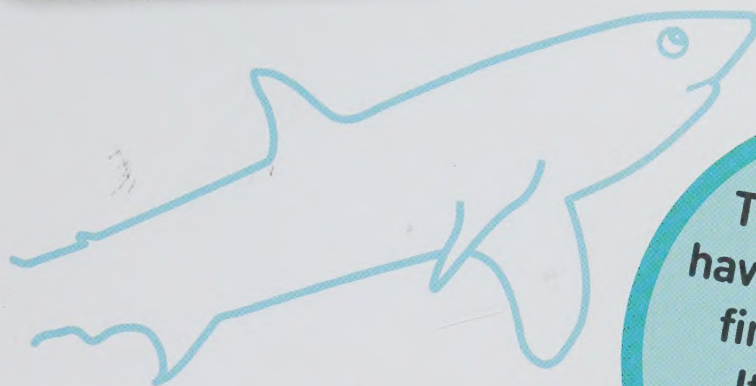

blue shark

Leopard shark

Some sharks are
speedy swimmers,
but most travel
at just 1.5 miles
an hour.

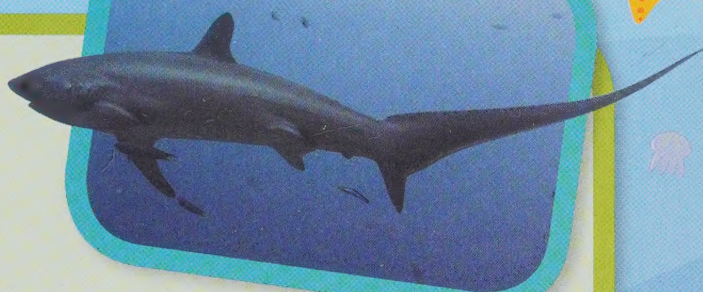

WINNER

Draw a new tail fin for the thresher shark.

Thresher sharks have the longest tail fin of any shark! It grows up to a massive 3 metres long!

Sticker the missing tails for the busy sharks.

thresher shark

Sharks have terrific teeth!

Colour and sticker the sharks.

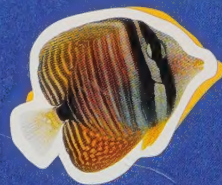

flat, crushing teeth
common smoothhound shark

tiny teeth
whale shark

pointed teeth
sand tiger shark

A shark's teeth
are set in rows.
When a tooth falls
out, another tooth
moves forward to
take its place.

Sticker more teeth, then
add fish to feed the shark!

Find eight differences between the underwater scenes.

Sharks have extra senses!

Help the shark sense its prey!

Sharks sense things by sight, smell, sound, touch, taste and electricity!

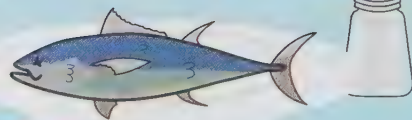

lemon shark

Start

Finish

Draw something smelly for the sharks.

Caribbean reef shark

Sticker sounds for the shark to hear.

Sharks have
a good sense of
hearing and hear
deep, low sounds
the best.

Some sharks' eyes glow green in the dark!

Sticker the sharks' green eyes!

Gills help sharks breathe!

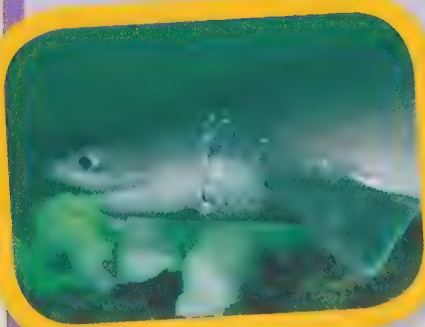

grey reef shark

Connect the dots!

sand tiger shark

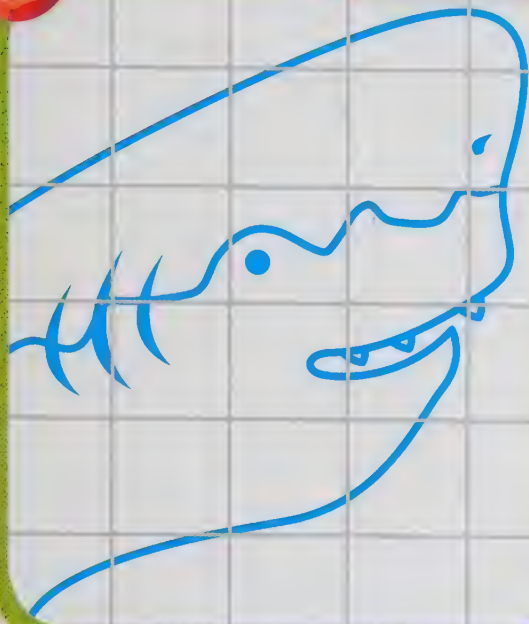

bluntnose sixgill shark

Many sharks must keep swimming at all times in order to breathe.

Follow the trails to help the shark get out of the cave.

Use the grid to draw the shark!

Nurse sharks pump water over their gills so they can stay still on the seabed for a long time.

Sticker more sharks on the seabed.

Leopard shark

Sharks can really **blend in!**

Sticker sharks into the correct colours to help them hide!

The colour of a shark's skin can help it hide from attackers or sneak up on its prey!

angel shark

Draw and colour your own shark pattern!

whale shark

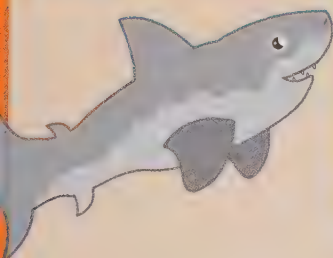

tiger shark

Finish the shark patterns.

Find six tiny sharks hiding on the page!

tasselled wobbegong shark

This shark looks like seaweed! Its strange mouth tricks fish into coming near it.

Sticker funny disguises for these sea creatures!

Hunters of the sea

Sharks are predators. A predator is an animal that hunts other animals.

sand tiger shark

Caribbean reef sharks

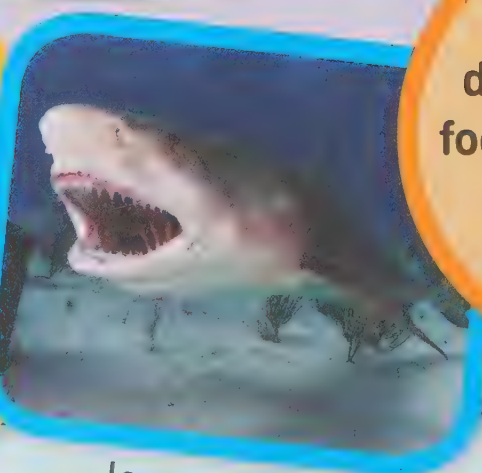

Draw and sticker a meal for the sharks.

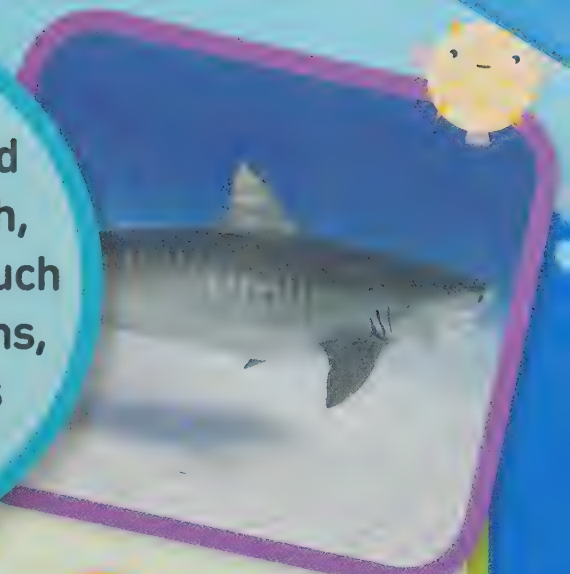

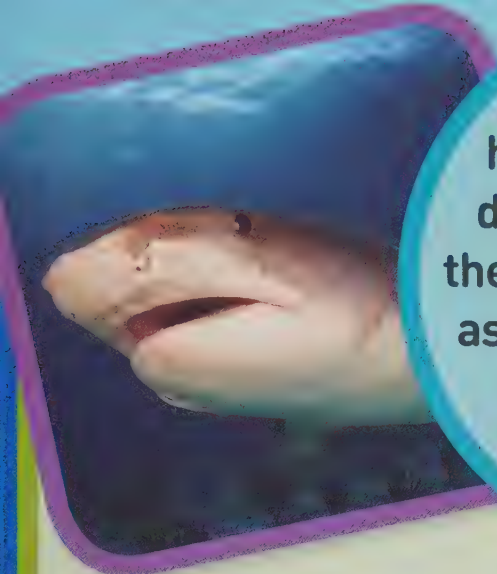

Most sharks don't chew their food; they swallow it whole or in large chunks!

whitetip reef sharks

lemon shark

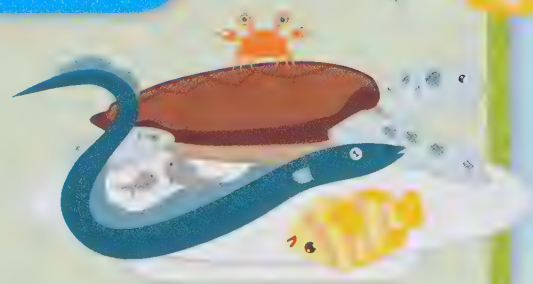

Tiger sharks
have a really mixed
diet! As well as fish,
they hunt animals such
as seabirds, dolphins,
sea snakes, seals
and sea turtles.

Sticker food for
the tiger shark!

Find the dinner that's different.

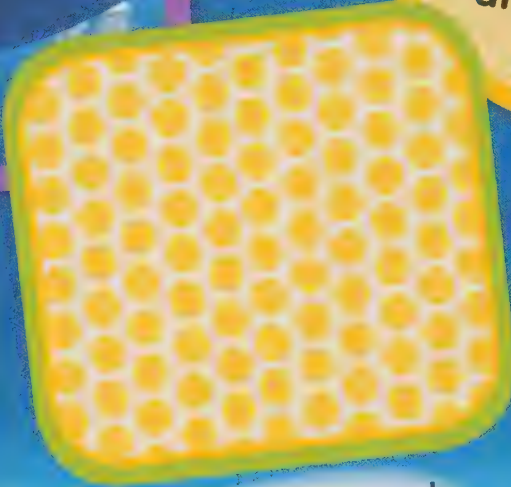

Some sharks are gentle giants!

whale shark

Filter-feeding sharks have massive mouths, but they only eat tiny plants and animals.

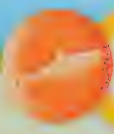

basking shark

Sticker more remoras.

Remoras are fish that attach to large sea animals to hitch a ride and feed on leftover food!

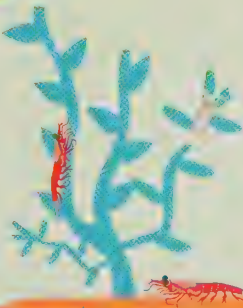

Follow the trails to find the fishy shake!

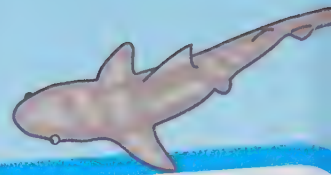

Every few hours, basking sharks swallow enough water to fill an Olympic-size swimming pool!

Colour and sticker to create a giant drink for the basking shark!

Baby sharks are called pups!

Find the missing stickers, then draw lines to match each pup to its mum!

grey reef
shark

great white shark

scalloped
hammerhead shark

Draw your own shark pup!

Stickers for pages 2 and 3

Stickers for pages 4 and 5

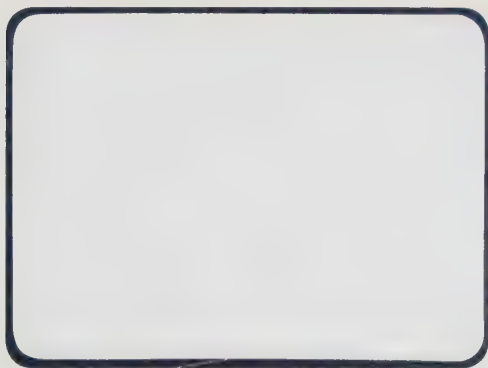

Extra stickers

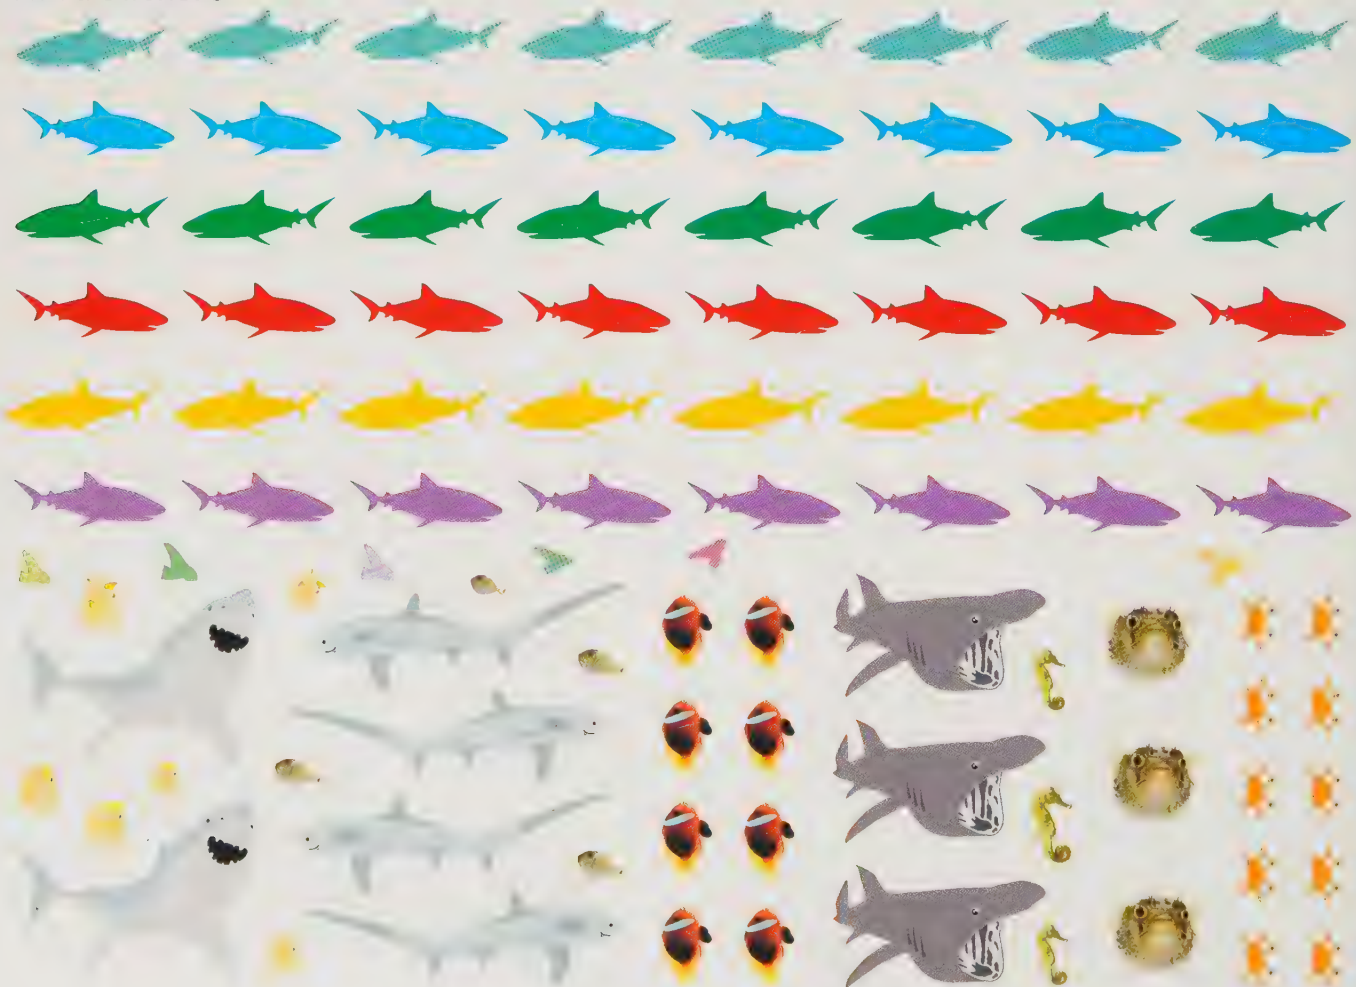

Stickers for pages 6 and 7

Stickers for pages 8 and 9

Extra stickers

A collection of colorful cutouts of sharks, sea turtles, and other ocean creatures, along with various hats and accessories, arranged on a light background. The sharks are in orange, striped, green, and blue. There are also sea turtles in blue and green, and a large grey shark fin. Accessories include a top hat, a blue fedora, a green hat, and several black and white circular patterns. The cutouts are scattered across the page, some overlapping.

A collection of colorful, stylized illustrations of sea creatures and objects. At the bottom center is a large, light blue fish with a white belly and a small black eye. Above it are several other elements: a purple starfish, a red crab, a green turtle, and various anchors and shells in different colors like blue, yellow, and pink. The background is a light blue gradient with a subtle pattern of small white dots. On the left side, there is a large, empty white rectangular area with rounded corners, outlined in a thick white border, intended for a drawing.

Stickers for pages 20 and 21

Stickers for pages 22 and 23

Stickers for pages 24 and 25

Stickers for pages 26 and 27

Stickers for pages 28 and 29

Extra stickers

Stickers for pages 32 and 33

Stickers for pages 34 and 35

Extra stickers

Stickers for pages 36 and 37

Stickers for pages 38 and 39

Stickers for page 40

Colour the mermaid's purse.

Some sharks lay spiral-shaped eggs! To keep the eggs safe, the sharks hide them between rocks.

shark egg

An empty shark egg is called a mermaid's purse!

How many mermaid's purses can you find?

.....

zebra shark

Sticker more eggs and colour the coral!

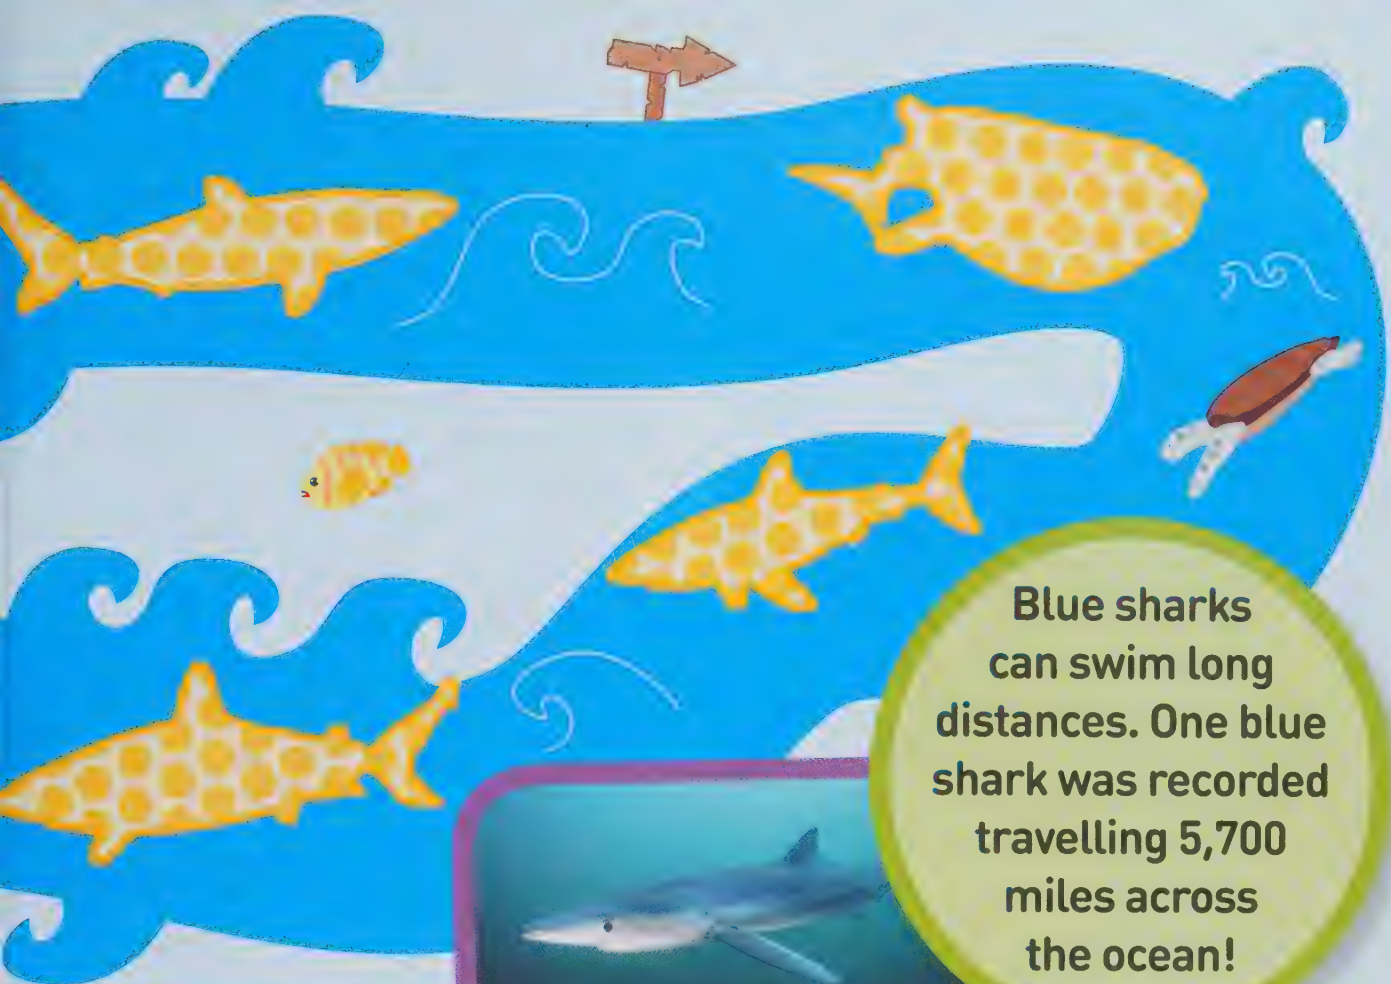

Sharks are on the move!

Sticker sharks on a long-distance race!

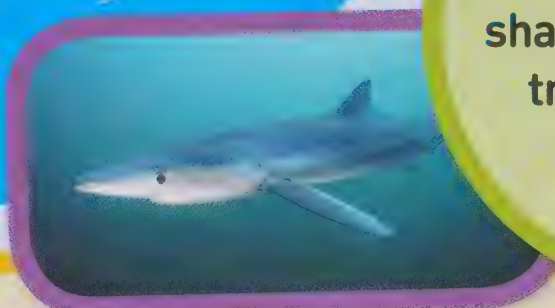

A great white shark named Nicole swam from South Africa to Australia and back, in just nine months!

Sticker the winning shark!

FINISH

Blue sharks
can swim long
distances. One blue
shark was recorded
travelling 5,700
miles across
the ocean!

Bull sharks can live in rivers and lakes, as well as in the ocean!

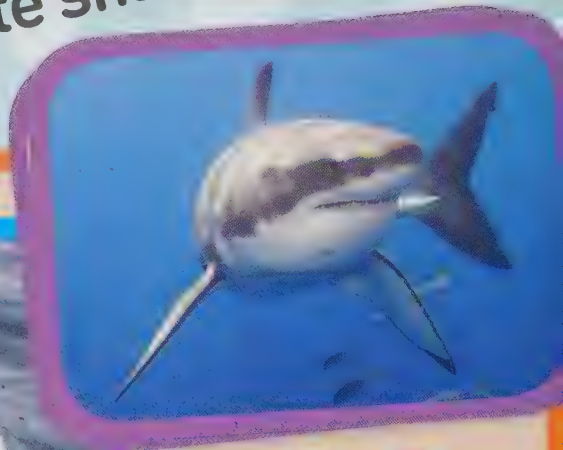

Find five differences
between the pictures.

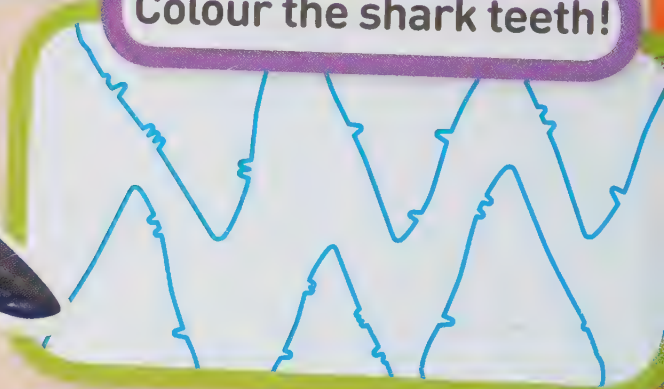

Incredible great white sharks

Great white sharks have more than 250 sharp teeth!

Colour the shark teeth!

Great whites hunt fish, dolphins, seals, sea lions and even some whales!

Sticker the missing sea creatures.

When hunting,
great whites can
launch themselves
out of the water!

Great whites
take their name
from their
white bellies!

Count the sharks and then
find the one that's different.

How many sharks can you count?

.....

Hammerhead sharks have amazing heads

Connect the dots and find the missing stickers to finish the hammerhead!

A weird-shaped head actually gives the hammerhead a better sense of smell. This helps the shark hunt its prey.

scalloped hammerhead shark

spotted eagle ray

A group of sharks is called a school.

Finish the school of hammerheads!

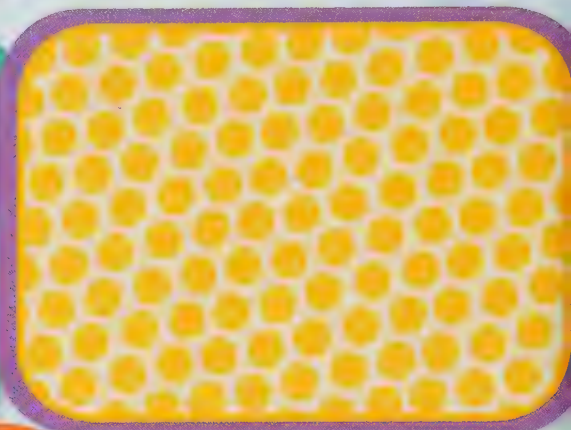

Hammerheads can get suntans!

Find the stickers to prepare the sharks for a day in the sun!

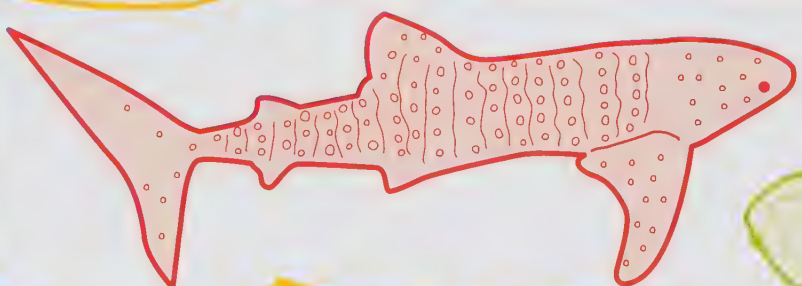

Whale sharks are enormous!

The whale shark is the largest fish in the world. It can grow to be as long as a school bus!

Colour and sticker the trophy.

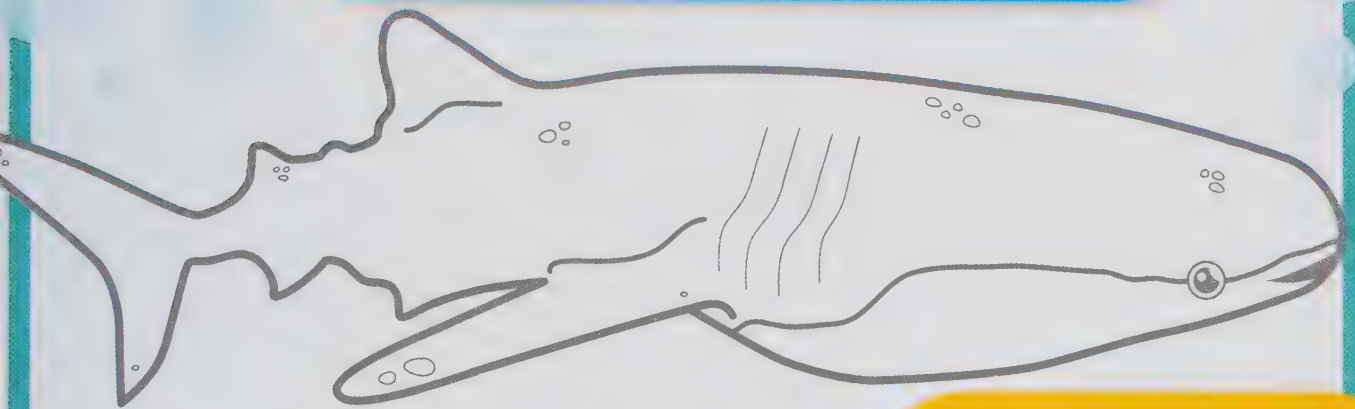

Sticker the sharks and then circle the one that is longer in each pair.

Whale sharks' spotted patterns are unique, just like fingerprints are for each of us.

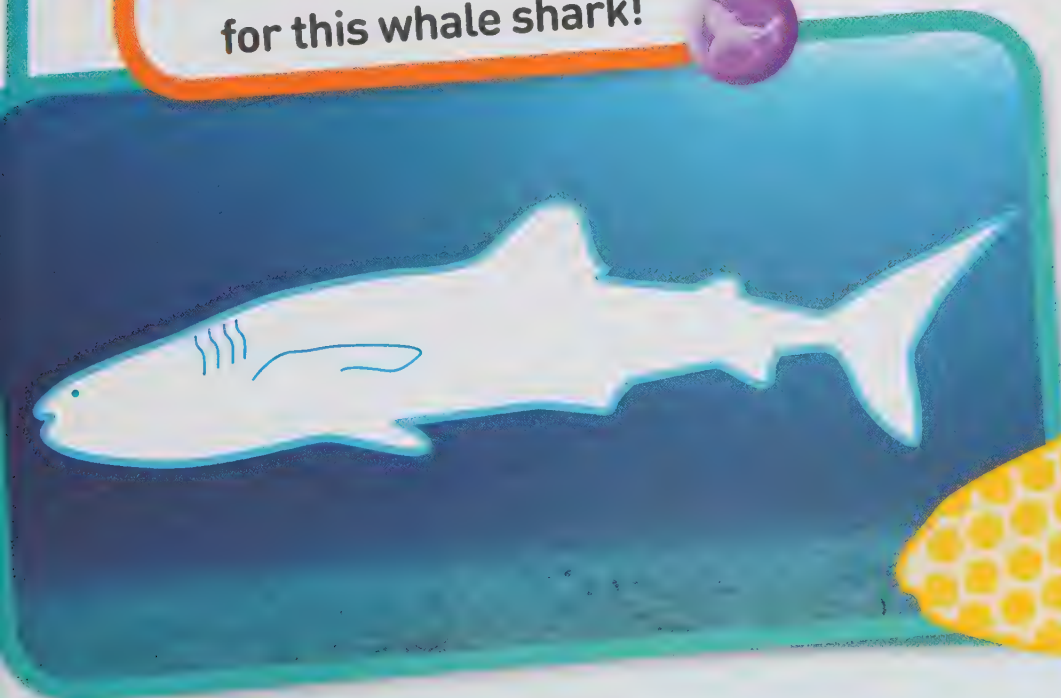

Sticker more spots on the whale shark.

Draw colourful spots on this whale shark.

Create your own pattern for this whale shark!

Exploring the coral reefs!

Find the missing stickers to fill the reef!

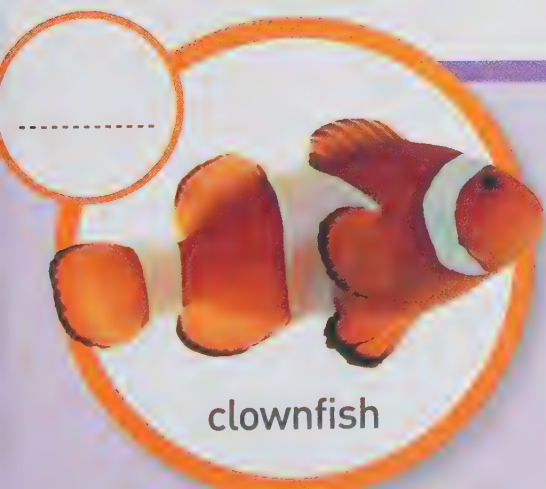

Many sharks live in and around coral reefs, including blacktip reef sharks and Caribbean reef sharks.

Be a reef explorer!
How many different sea creatures can you count?

Colour the shark.

Colour the coral reef.

clownfish

seahorse

World's Weirdest sharks!

Some sharks do not look like sharks at all!

Find the missing shark, then decorate the picture frames!

The unusual goblin shark is a pink-white colour!

Colour the goblin shark.

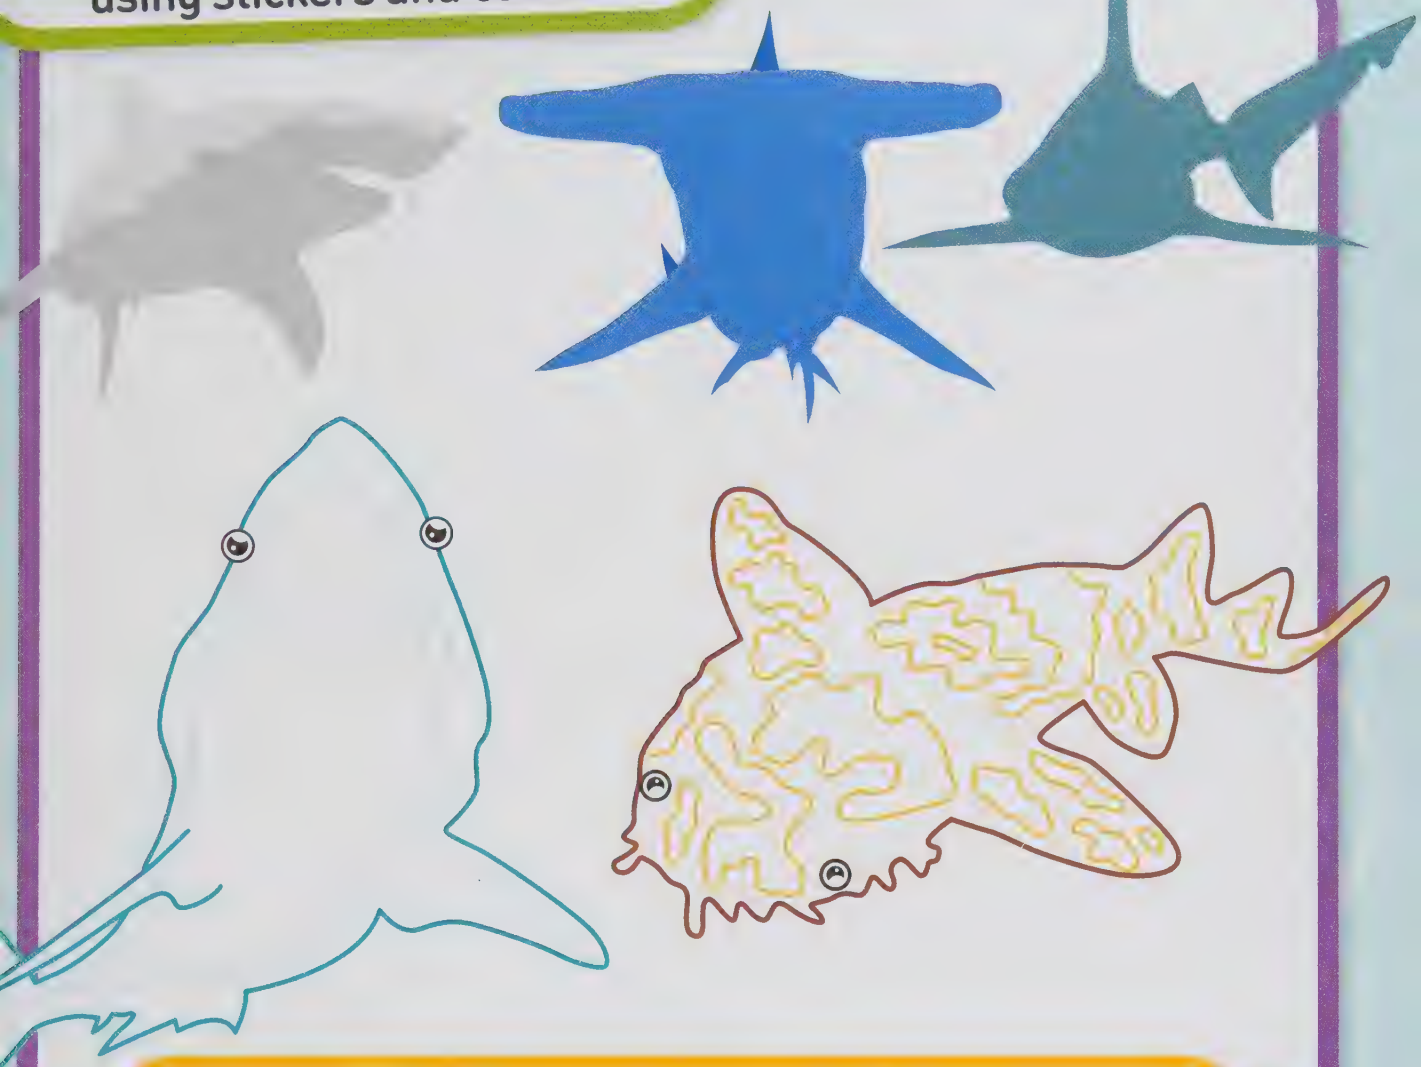

The cookie-cutter shark bites cookie-shaped chunks out of its prey!

Sticker a spot for the epaulette shark.

Create your own amazing sharks
using stickers and colour!

Draw your own shark and decorate it with stickers!

Megalodon was an ancient shark!

Megalodon lived millions of years ago. At about 15 metres long, it is thought to be the biggest shark ever!

Sticker a diver to find out how big megalodon was!

Help the diver find the shark tooth and then get back to the boat.

Megalodon
means "big tooth."
This shark's teeth
were as big as a
human hand!

Draw and colour more teeth for megalodon.

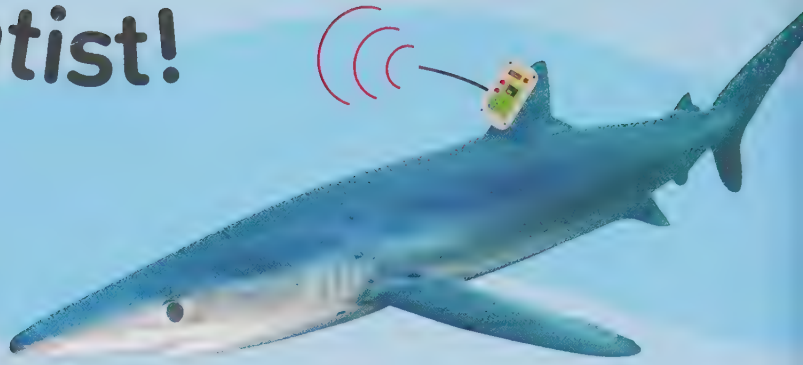

Find the seven
megalodon teeth!

Find the missing stickers
to finish the patterns.

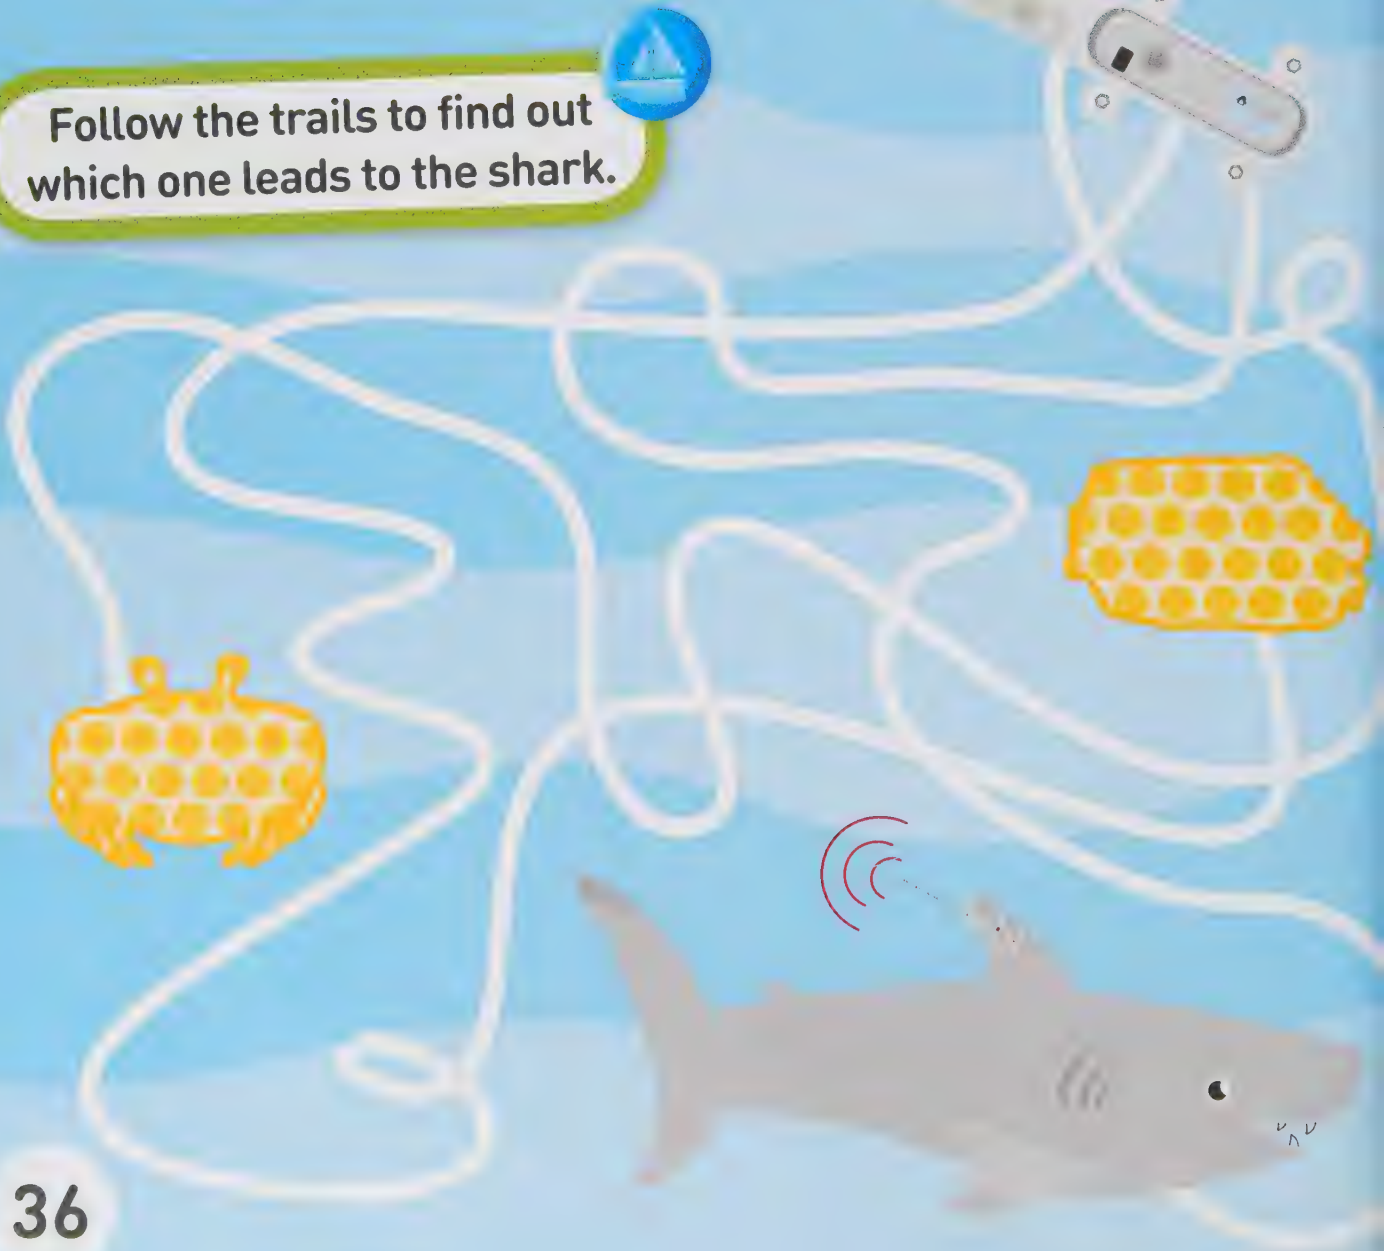

Be a shark *Scientist!*

Scientists put special tags on sharks to follow them and find out more about the way sharks live.

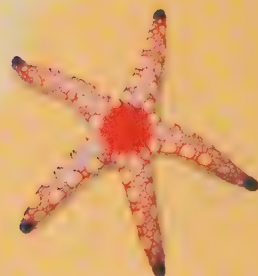

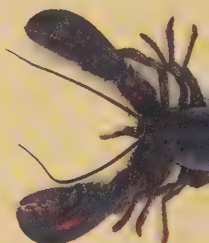

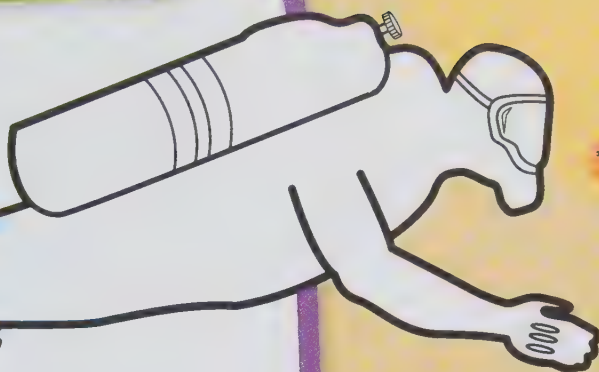

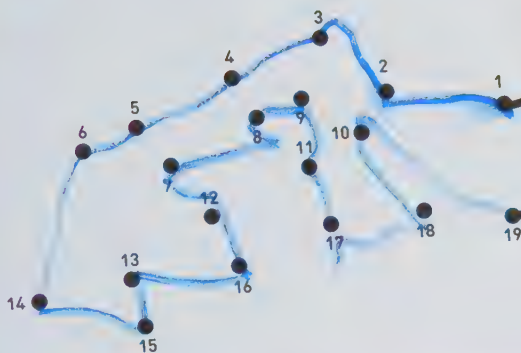

blue shark

Follow the trails to find out which one leads to the shark.

Connect the dots to find out who is swimming with the sharks.

Sticker more sharks and divers.

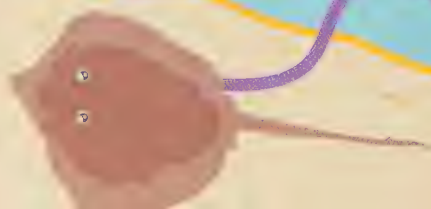

Fin-tastic shark facts!

Bull sharks head-butt their prey.

Hammerhead sharks can find a stingray even when it is hidden under the sand!

Follow the trails to find the stingray.

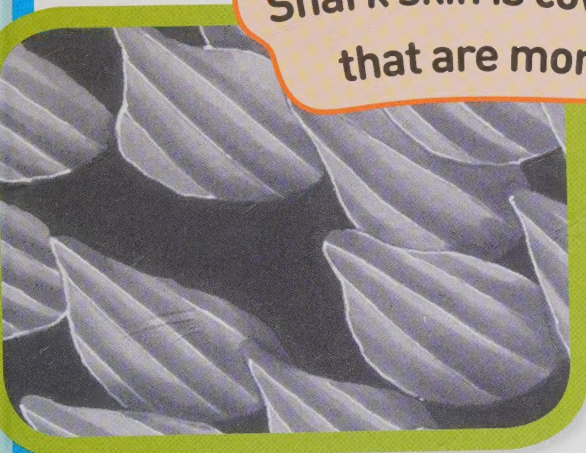

tiger shark

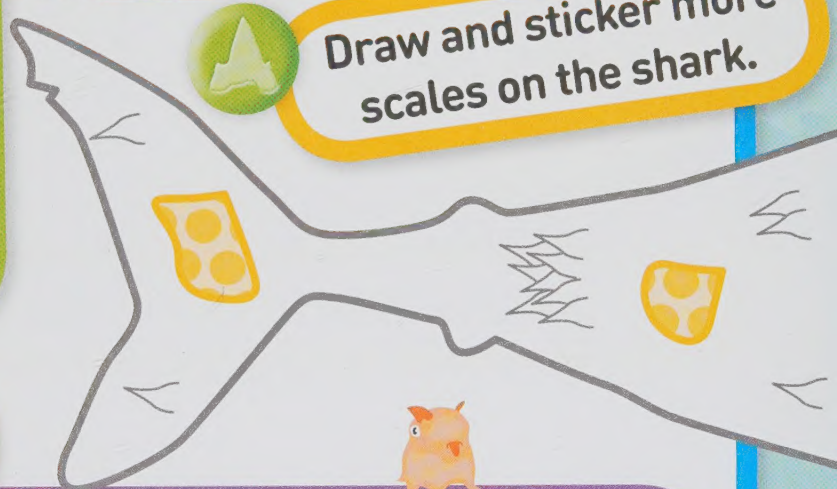

Many sharks have a special eyelid that covers and protects each eye before an attack.

Shark skin is covered in tiny, v-shaped scales that are more like teeth than fish scales!

Draw and sticker more scales on the shark.

Find the missing stickers to finish the picture.

Lemon sharks take their name from their yellow-brown skin!

lemon sharks

My favourite sharks!

Colour and sticker
the shark friends!

nurse shark

whitetip reef shark

Draw yourself swimming with sharks!

Who's hiding in the cave?

great white shark

**Tiger sharks hunt
and whale sharks
splash ...**
